- Skilled in FullStack web development, hardware and software technology, report management, and customer service.
- Experienced in working independently and in a team environment.
- Strong ability to self-manage during independent projects.
- Effective collaborator and team player

WORK EXPERIENCE

Lacteos Luz Azul. Fullstack web Developer (junior)

September 2022 - March 2023

I was responsible for implementing and maintaining the company's new web application and RESTful APIs. My role involved utilizing a variety of technologies, including HTML, CSS, JavaScript, PHP, Laravel, Node.js, and MySQL, to ensure optimal performance and user experience.

Freelance Web Developer

November 2021 - Present

I have experience in creating websites, web applications, and APIs. I am proficient in implementing complex functionalities and utilizing external libraries and SDKs to ensure optimal performance. Additionally, I provide technical support and consulting services in both Spanish and English to ensure client satisfaction. My expertise includes developing both traditional and decentralized applications (dApps) and utilizing modern technologies to create scalable and secure web solutions.

Bonifacio S.A. Machine Operator

February 2020 - July 2021

I was responsible for monitoring the correct functioning of the cooling, heating, and air equipment in the building. My role involved performing shutdown and startup procedures as necessary to ensure optimal operation of the equipment. Additionally, I provided telephone and mail service for complaints related to the equipment and handled the automation software to manage its operations. I maintained accurate records and reports on the operation of the equipment, ensuring that any issues were addressed in a timely and efficient manner. Throughout my tenure, I prioritized safety and followed all necessary protocols to ensure a safe and productive work environment.

Grupo de Empresas Turbus S.A. Electronic technician*June 2017 - September 2019*

Responsible for overseeing corrective maintenance and generating reports on failures and completed work. My role involved repairing, calibrating, and maintaining a wide range of electronic equipment, including sensors, computers, and wiring for buses, trucks, and other company equipment. I worked closely with a team of technicians to ensure that all work was completed to a high standard and adhered to industry best practices.

Next-Soft Software Solutions S.A. Electronic technician*June 2014 - August 2016*

Provided technical support and assistance to users with hardware, PC, and network issues, as well as administrative software, Windows, Office package, and other related software. My role involved performing both preventive and corrective maintenance, as well as implementing new solutions to improve overall system performance. Additionally, I managed warranties for equipment and ensured that all necessary repairs were carried out in a timely and efficient manner. I worked closely with a team of technicians to resolve issues, and I maintained accurate records of all maintenance and repair activities. Throughout my tenure, I prioritized customer satisfaction and ensured that all technical issues were addressed quickly and effectively.

INTERESTS

Outside of work, I am a runner and fitness enthusiast, which has taught me discipline, goal-setting, and perseverance. In my free time, I enjoy playing video games, which has honed my problem-solving skills and ability to think creatively. Also, I love to travel and immerse myself in new cultures, which has helped me become more adaptable and open-minded. I believe these skills and qualities can be applied to any role, and I am excited to bring my unique perspective to your team.
